

ELM FACES & PLACES

THE CHEFS FOR CHILDREN:
WHEN HAUTE CUISINE MEETS SOLIDARITY
ON THE COSTA DEL SOL

The eighth edition of ChefsForChildren once again proved that gastronomy can go far beyond the plate. Set in the elegant Ananlara Villa Padierna Palace Benahavis Marbella Resort, the event brought together top chefs, institutions and young participants for a day defined by emotion, learning and purpose.

At the heart of the initiative, 150 children from FEDER, along with students from local schools, took part in interactive cooking workshops under the motto "Eating healthy is fun". Guided by renowned chefs, they explored simple recipes in an atmosphere filled with joy, curiosity and shared discovery.

As the day evolved, the setting shifted into a refined evening experience. A cocktail reception in the gardens preceded a gala dinner attended by 360 guests, where 36 chefs came together in support of the cause. Málaga's Michelin-starred chefs created an exceptional tasting menu, showcasing the region's culinary excellence.

One of the most meaningful moments was the presentation of donations to Juan Carrión, highlighting the impact of this initiative.

ChefsForChildren continues to stand as a unique platform where gastronomy and solidarity come together — creating memories that last far beyond the table.
